

**Low-cost and reliable semi-automatic strapping machine is now ready from band-A-matic. The BONITO-3 offers what you want!**

#### MICROCOMPUTER CONTROL

Microcomputer controlled system enables reliable, stable performance in tensioning.

#### HOUSEHOLD VOLTAGE

The Bonito is powered from a standard single-phase electrical socket, so it can be used without difficulty in any office and shop.

#### WIDE VARIETY OF STRAP

Adjustable strap ranging from 5mm -15.5mm of width can be utilized without changing parts. Also, various kinds of straps, such as polypropylene, elastic, formed, etc can be utilized on Bonito.

#### SIMPLE DESIGN, BUT HIGH PERFORMANCE

Simplifying its design, minimizing its functions, this Bonito must be one of ideal semi-automatic strapping machines in the market. Its cost performance can be realized only by those who use the machine and would recognize that the low cost machine is not always low quality.
